Personal Care

Dear friend,

The last few months have been extremely challenging for Klal Yisrael across the world, commencing with the butchering of our brothers and sisters in Eretz Yisrael and the most abhorrent acts that took place on Simchas Torah. We have seen the world and countries where we live in, turn against us. Those who we would've thought supported us, have shown their true colors and openly condemned us and what we stand for. We are totally on our own and have been left to our own defenses.
הם עם לבדך.

Although it has never been as clear as it is today, we now realize how isolated we are as a nation. **בכל דור ודור עומדים עליינו לכלותינו.** Now, more than ever, Klal Yisrael must stand together, **באחדות תפילה**, the Prayers, learning/the studying of Torah, and adherence to the Mitzvos/Commandments, as well as carrying out acts of loving kindness that are our only protection and that will carry us through. Although sometimes challenging, it is incumbent upon us to rise up each day with a refreshed vigor, and make every effort in all of the above areas. Only Hashem, in His kindness, will save us as always from the tests which we are currently going through. We must continue to daven. **אין לנו על מי להשתען אלא על אבינו שבשמיים** we don't have anyone else to rely on, other than our Father in Heaven. It is imperative for us to reach out, as only Tefillah will help.

As we sit at the Seder Table, we daven for the 'גאלאתי' the redemption, which will come, thereby putting an end to these atrocities and hate with the advent of the arrival of Moshiach, who is long awaited, speedily in our days.

With Tefillos/Prayers for peace, Simcha, and a good Yom Tov,

Rabbi Saul Emanuel

Les derniers mois ont été extrêmement difficiles pour le peuple juif à travers le monde. Nous sommes profondément marqués par l'horrible massacre de nos frères et sœurs en Eretz Israël et par les actes les plus abominables qui ont eu lieu à Simchat Torah. Par la suite, nous avons vu presque le monde entier se retourner contre nous. Nous avons été condamnés ouvertement par ceux qu'on pensait qui allait nous soutenir, mais qui finalement, se sont montrés sous leur vrai jour.

Nous sommes totalement livrés à nous-mêmes et nous avons été abandonnés à notre sort. **הָם עַם לְבָדֵד יִשְׁכַּן**. Bien que cela n'ait jamais été aussi clair qu'aujourd'hui, nous réalisons maintenant à quel point nous sommes isolés en tant que nation.

בכל דור ודור עומדים עלנו כלותינו
באחדות ואחדות. Aujourd'hui plus que jamais, le peuple d'Israël doit se mobiliser, dans l'unité. Ce sont nos prières, notre étude de la Torah, nos mitzvot et nos actes de bonté qui sont notre seule protection et qui nous permettront de traverser cette épreuve.

Bien que cela soit parfois difficile, il nous incombe de nous lever chaque jour avec une vigueur renouvelée et de faire tous les efforts possibles dans tous les domaines susmentionnés. Seul Hashem, dans Sa bonté infinie, nous sauvera comme toujours des difficiles épreuves que nous traversons actuellement. Nous devons continuer à prier. **אין לנו מֵלֹה שֶׁעָשָׂן אֶלָּא עַל אָבִינוּ שֶׁבְשָׁמָיִם** Père dans le ciel. Il est impératif de l'implorer, car seule la Tefillah nous aidera.

Lorsque nous sommes assis à la table du Seder, nous prions pour le «**וּגְאַלְתִּי**», la délivrance, qui viendra, mettant ainsi fin à ces atrocités et à cette haine avec l'arrivée du Mashiach, qui est attendu depuis longtemps, rapidement de nos jours.

Avec des tefillot, prières pour la paix et la simcha, je souhaite à tous de belles fêtes de Pessach.

Kashering Cashériser

KASHERING FOR PESACH

Although it would be great to have everything totally separate for Pesach, this is sometimes difficult. The Halacha (Jewish law) therefore allows for the Kashering of most vessels and utensils.

Methods for Kashering

HAGALAH The item is cleaned thoroughly and left out of use for 24 hours. All surfaces of the item are placed into a pot of water* which is on the fire and at a rolling boil. Once the item is removed from the hot water, it is rinsed under cold water. There are those who have a dedicated 'Kashering pot' for this purpose, but one may also use an ordinary pot that has previously been used for Chametz, dairy or meat, provided the pot is spotlessly cleaned and has been left out of use for 24 hours and then Kashered. Hagalah is generally used on items such as pots, forks, spoons, metal, or wooden utensils which cannot be used directly on the fire.

ERUI The item is spotlessly cleaned and left out of use for 24 hours. Water is brought to a rolling boil in a pot or a kettle* on the fire and this water is then poured directly from the pot on all the surfaces of the item being Kashered. *Extreme caution should be exercised during this method of Kashering to avoid anyone accidentally getting burned by the water.*

**preferably one should use a separate Passover pot or kettle for Kashering. Should you want to use this pot on Passover, please consult your Rabbi.*

LIBUN GAMUR: The item being Koshered is heated with a blowtorch or hot coals until the item begins to glow red hot. It is not necessary to leave this item out of use for 24 hours prior to the Kosherization period. This method of Kosherization should be carried out only by those individuals who are specially trained in this area. Libun Gamur is used for items which are used directly on a fire for baking or broiling.

LIBUN KAL: Libun Kal is the heating of utensils until such time as a thin splinter of wood or tissue shows marks of burning when they touch the item which is being Kashered. This process is usually used on items where Hagalah (purgating) cannot be performed.

MILUI V'ERUI: Soaking in cold water for 3 days, whilst the water is changed every 24 hours.

TEVILLA: Immersing any brand new items in the Mikvah.

SELF-CLEANING OVEN

A complete self-clean cycle should be run with the racks inside the oven. The oven may then be used for Pesach without covering the racks. This Kashering may be done even if the oven wasn't left out of use for 24 hours. Should the racks not have been inside the oven during the Kashering process, they should then be Kashered separately. After the cleaning cycle, some line the glass window of the inside oven door with aluminum foil.

Note: all oven cleaners are acceptable for year round use, including Pesach.

CONTINUOUS-CLEANING - REGULAR OVEN

There are different opinions as to which method is indicated:

(1.) Libun Gamur or (2.) Libun Kal.

Consult with your Halachic authority as to which method is required.

Libun Gamur

A torch must be passed over each part of the metal interior surface slowly enough so that each part begins to glow red. Thermostats should be removed before this procedure. WARNING: In the hands of the inexperienced, this often leads to destroyed wiring, warped ovens and frayed nerves, therefore only the experienced should carry out this process.

Libun Kal

Apply caustic oven cleaner liberally to all surfaces of the oven, including the door. Check the oven to see if all surfaces are clean, if not, this process must be repeated. The oven should remain out of use for twenty-four hours. Thereafter, operate the oven at the highest temperature for at least one hour. The oven racks must be in the oven while the Kashering procedure takes place.

STOVE TOPS - ELECTRIC

Stove tops must be cleaned thoroughly as new. This includes the metal rim around the element, the enamel surface between burners, drip pans and the area under the drip pans if accessible. The stove knobs should be removed and cleaned or replaced. Electric elements are Kasheder by turning them on the highest setting for 5 minutes. Enamel surfaces between burners, as well as drip pans beneath burners and the metal rim around the elements should be covered with aluminum foil. Be careful not to short circuit the stove with excess foil. Some have the custom of having special metal rims and drip pans for Passover. Use extreme caution when doing this. Do not leave the stove unattended. Do not Kasher all burners at the same time.

STOVE TOPS - GAS

Stove tops must be cleaned thoroughly as new. This includes the iron grid on which the pot rests, the enamel surface between burners, drip pans and the area under the drip pans if accessible. The stove knobs should be removed and cleaned or replaced. The iron grids which have been cleaned thoroughly, should be placed into a self-cleaning oven and left for an hour on the self-cleaning cycle. If this is not possible, the iron grid should remain on the stove top and each burner should be turned on to the highest temperature for fifteen minutes. It is preferable that for those fifteen minutes, the burner should be covered with a piece of metal such as a Blech. Kasher one burner at a time. Enamel surfaces between burners as well as drip pans beneath burners should be covered with aluminum foil. Use extreme caution when doing this. Do not leave stove unattended. Do not Kasher all burners at the same time.

HOODS

The hoods over stoves are prone to being filled with food remnants. These should be cleaned well, and covered with aluminum foil. The filters must be cleaned as new or changed.

METAL SINKS

Step One

All sinks to be Kashered must first be thoroughly cleaned like new, paying special attention to crevices and cracks. Additionally, the taps as well as the faucets must also be thoroughly cleaned.

Step Two

After the cleaning, they must not be used for a minimum of 24 hours with hot water. Prior to Kashering, in order to ensure that no hot water is used, it is a good idea to turn off the hot water valve under the sink. Pour a very strong drain cleaner down and around the drain/s. The method of Kashering the sink is with Erui. The entire sink surface must be dry prior to the pouring of the boiling water, so as not to cool down the water. Therefore it is recommended to Kasher the base of the sink first and then to Kasher the sides. Take a special Passover Kashering kettle and fill it up with water. Bring the kettle to a boil. Immediately after the water boils, it should be poured over the surface to be Kashered. Pour boiling water over every part of the sink, concentrating on small areas at a time, ensuring that as you pour the water, it remains boiling hot. Some have the custom of pouring the boiling water onto a hot stone, and moving the stone around, while pouring the water. After the sink/s are Kashered, pour cold water over them. Boiling hot water must also be poured over the faucet/s as well as the hot and cold water knobs. If the spout has a strainer, it must be changed for Passover. (Sink stoppers should also be changed). After Kashering, some people have the custom of covering the sink/s with an insert.

ENAMEL, PORCELAIN, CORIAN, FIBERGLASS, & GRANITE COMPOSITE SINKS

These sinks can not be Kashered. They should be cleaned thoroughly as new. Pour a very strong drain cleaner down and around the drain. Thereafter, the sink should be covered with special Pesach inserts.

Since the hot and cold water taps, as well as the faucets are metal, these should be Kashered with Erui as explained above (See Metal Sinks). If the spout has a strainer, it must be changed for Passover. (Sink stoppers should also be changed).

COUNTER TOPS

There are various types of counter tops commonly in use and we list below those which are frequently questioned:

FORMICA, CORIAN, SURRELL, QUARTZ, RESIN, GRANITE COMPOSITE - These cannot be Kashered.

The counter should be spotlessly cleaned and covered with contact paper or an additional piece of Formica.

**POLISHED MARBLE, STAINLESS STEEL COMMERCIAL
COUNTER AND POLISHED GRANITE -** these may be Kashered.

Step One: All surfaces to be Kashered must first be thoroughly cleaned as new.

Step Two: After the cleaning, they must not be used for a minimum of 24 hours for anything hot, prior to the Kashering. The entire surface must be dry prior to pouring the boiling water, so as not to cool it down. The method of Kashering this counter is with Erui. Take a special Passover Kashering kettle and fill it up with water. Bring the kettle to a boil. Immediately after the water boils, it should be poured over the surface to be Kashered. Pour boiling water over every part of these surfaces, concentrating on small areas at a time, ensuring that as you pour the water it is boiling hot. After the counter is Kashered, pour cold water over it. After the Kashering, many have a custom of covering the surface. If the polished marble or granite is cracked, filled, or when installed, coated with a special sealant, please consult your Halachic authority, whether it can be Kashered.

TABLECLOTHS & DISH TOWELS

The usual method of cleaning e.g. dry cleaning, laundry by washing machine is sufficient. There are however those who prefer to have separate tablecloths and dishtowels for Pesach. Make sure that STARCH is not used. Towels and tablecloths should be washed with detergent, with the machine at the hottest setting. New tablecloths may contain a starch which is not acceptable for Passover. Be sure to wash them before Pesach use. Plastic tablecloths previously used for Chametz should not be used on Pesach. New plastic table coverings need no special Pesach certificate or preparation.

KASHERING ACCORDING TO SEFARDIC CUSTOM

OVENS

SELF-CLEANING OVEN

A complete self-clean cycle should be run with the racks inside the oven. The oven may then be used for Pesach without needing to cover the racks. Being that self-clean has a status of libun gamur, this method may be done even if the oven was used in the 24 hours prior and does not require the application of a cleaning agent prior running the cycle.

Note: If the racks were not present inside the oven during the koshering process, they should be koshered separately.

REGULAR (NON-SELF-CLEANING) OVEN

For regular ovens with no self-clean option, deep clean the oven using a cleaning agent such as easy off. Be sure to wipe off as much grease as possible. The oven should remain out of use for twenty-four hours prior to koshering. Thereafter, operate the oven at the highest possible temperature for a minimum of one hour.

Note: This method does not work to kosher the oven racks; they should be placed into a self-cleaning oven and left for an hour on the self-cleaning cycle. If this is not feasible, please contact your Rabbi. If one is not accustomed to placing food on the grills, it would be enough to heat it with the rest of the oven.

OVEN DOOR

After running the cleaning cycle, it is not necessary for Sefaradim to line the glass window inside the oven door.

KASHERING ACCORDING TO SEFARDIC CUSTOM

STOVE TOPS

ELECTRIC STOVE TOPS

Electric stove tops must be cleaned thoroughly to resemble a like-new state. This includes the metal rim around the element, the enamel surface between burners, the drip pans, and the area under the drip pans if accessible. Stove knobs should be removed, cleaned, covered or replaced.

After waiting twenty-four hours from its last use, the enamel surface of the stove top should be koshered through irui kli rishon. Even according to Sefardic custom, some cover the enamel surface following koshering. Element borders and drip pans require irui kli rishon or hagalalah. If neither of these options are possible, one should double-wrap the borders very well. Electric elements should then be koshered by turning them on the highest setting for 5 minutes.

Caution: Do not leave the stove unattended. Do not kosher all burners at the same time.

GLASS STOVE TOPS

Glass stove tops are made of a glass-ceramic material. As implied by its name, and due to its nonporous properties, these stove tops have the Halachic status of glass. For Sefaradim only, the glass stove top may be koshered. To do so, clean the surface with a cleaning agent. This includes cleaning the knobs, buttons, sides, and corners. It is recommended to change or cover the knobs. After twenty-four hours of not using the stovetop, pour hot water over the entire surface of the stovetop. Turn on each element for 15 minutes.

Caution: Do not leave the stove unattended. Do not kosher all the burners at the same time.

Chai Lifeline
CANADA

KASHERING ACCORDING TO SEFARDIC CUSTOM

INDUCTION STOVE TOPS

Follow the same steps as delineated for glass stove tops. In order to kosher the elements, use a Chametz pot that has not been used for twenty-four hours and heat the element at the highest temperature for 15 minutes.

GAS STOVE TOPS

Gas stove tops must be cleaned thoroughly to resemble a like-new state. This includes the iron grid on which the pot rests, the enamel surface between burners, drip pans, and the area under the drip pans if they are accessible. The stove knobs should be removed, cleaned, covered or replaced. The iron grids which have been cleaned thoroughly, should be placed into a self-cleaning oven and left for an hour on the self-cleaning cycle. If this is not feasible, the iron grid should remain on the stove top, and each burner should be turned on to the highest temperature for fifteen minutes. It is preferable that for those 15 minutes, the burner should be covered with a piece of metal such as a Blech. Kosher one burner at a time. After letting it sit for twenty-four hours, the enamel surface of the stove top should be koshered through irui kli rishon. Even according to Sefardic custom, some nonetheless have the custom to cover the enamel surface after koshering. Element borders and drip pans require irui kli rishon or hagalalah. If neither of these options are possible, one can double wrap the borders very well and use them. Do not leave the stove unattended.

OVEN HOODS

Being that the oven hood retains food remnants and absorbed Chametz vapor, it is required to be cleaned well and koshered for Pesach. One should clean the hood surface with a cleaning agent, leave it idle for twenty-four hours, and then boil water so the steam koshers the hood. Alternatively,

KASHERING ACCORDING TO SEFARDIC CUSTOM

one can carefully clean the hood surface with a cleaning agent and cover the hood with aluminum. The filter should be washed well or changed.

MICROWAVES

Ideally, one should not kosher a Microwave. In the event that one needs to use the microwave during Pesach the following steps should be followed: Remove the glass dish and carefully clean the entire surface of the microwave and glass dish. After leaving the microwave idle for 24 hours, put the glass plate back into the microwave and heat a cup of water mixed with dishwashing soap until the water evaporates (approximately 10 min). One should then move the cup to another area and boil a second cup of water, this time without soap. Even after the koshering process, one should still double wrap food heated in the microwave during Pesach.

SAVEURS
**MOSAIC**
FLAVORS

514-684-0000

KASHERING ACCORDING TO SEFARDIC CUSTOM

If one is accustomed to placing foods directly on a hot plate, it cannot be koshered. The only solution is to clean the hot plate well, turn it on for 1 hour, and then carefully double wrap it with heavy duty aluminum foil. If one is accustomed to only placing foods on the hot plate in a pan, it can be koshered. The hot plate must be cleaned well. After letting it sit idle for 24 hours, pour boiling hot water from a kli rishon over the entire surface. Even after this process, ideally, one should wrap the entire surface with aluminum foil.

MIXERS AND GRINDERS

Mixers, grinders and food processors that were used throughout the year for Non-Chametz can be koshered. All removable parts should be removed and koshered using hagalalah. Parts that cannot be removed and are easily accessible should be wiped down very well. If the parts cannot be removed and are not easily accessible to clean, it cannot be koshered. **Note: Bread mixers, or machines that were used to grind Chametz at any time throughout the year cannot be koshered.**

HOT WATER URNS

If bread was not heated on top of the urn, clean the urn well and attempt to remove all the calcium buildup in the urn. Fill the urn to the top with water and let it boil. Although if bread was heated on top of the urn, the entire urn must be koshered. For a metal urn, perform libun kal. If not feasible, perform hagalalah. For plastic urns, perform hagalalah.

Applesnax™ au naturel

applesnax.com

KASHERING ACCORDING TO SEFARDIC CUSTOM

DISHWASHERS

According to many Sefardic Poskim, the interior of a dishwasher can be koshered, regardless if it is made of metal or plastic. To kosher, clean the washer well, remove and pay special attention to the food trap and the filtration system, and clean out all food remnants. (If one cannot properly remove all food remnants, consult your Rabbi). After letting it sit idle for 24 hours, run an empty cycle using soap on the hottest setting. Some run a second cycle with water only. Ideally, one should change the baskets. If not feasible, wash them well. Note: For porcelain dishwashers, consult your Rabbi.

SINKS

According to all Poskim, metal sinks can be koshered. According to many Sefardic Poskim, all sinks, no matter the material, can be koshered (consult your Rabbi.)

The sink must be thoroughly cleaned to a like-new state, paying special attention to cracks and crevices. Additionally, the taps as well as the faucets must be cleaned thoroughly. After cleaning, the sinks must not be used with hot water for a minimum of 24 hours. Prior to koshering, in order to ensure that no hot water is used, it is advisable to shut the hot water valve beneath the sink. Pour a very strong cleaner down and around the drain/s.

The method of Koshering is a irui kli rishon. The entire sink surface must be dry prior to the pouring of the boiling water so as not to cool down the water. Therefore, it is recommended to kosher the base of the sink first and then the sides. Take a special Passover koshering kettle

KASHERING ACCORDING TO SEFARDIC CUSTOM

and fill it with water. Bring the kettle to a boil. Immediately after the water boils, it should be poured over the surface to be koshered. Pour boiling water over every part of the sink, concentrating on small areas at a time, ensuring that as the water is poured, it remains boiling hot. Following koshering, pour cold water over the sinks. Boiling hot water must also be poured over the faucet/s as well as the hot and cold-water knobs. If the spout has a strainer, it must be changed for Passover. Sink stoppers should also be changed. Note: Some have the custom to perform irui three times for porcelain sinks.

COUNTER TOPS

According to Sefaradim, all countertop materials can be koshered with the following process

The surface to be koshered must first be thoroughly cleaned to a like-new state. After cleaning and prior to koshering, the countertops must not be used with anything hot for a minimum of 24 hours. The entire surface of the countertop must be dry prior to pouring the boiling water. Then, kosher the counter through irui: Take a special Passover koshering kettle and fill it up with water. Bring the kettle to a boil. Immediately after the water boils, it should be poured over the surface to be koshered. Pour boiling water over every part of these surfaces, concentrating on small areas at a time, ensuring that as you pour the water it remains boiling hot. After the counter is koshered, pour cold water over it. After the koshering, some have a custom to cover the surface. If polished marble or granite is cracked, filled, or when installed, coated with a special sealant, please consult your Halachic authority as to whether it can be koshered or not.

KASHERING ACCORDING TO SEFARDIC CUSTOM

TABLES

If one is accustomed to eating with a tablecloth all year-round, it suffices to meticulously wipe down the table. If one is accustomed to eating without a tablecloth, one should kosher the table using irui kli rishon. According to Sefardic custom, a glass table can be used in all cases if meticulously wiped down.

FRIDGES & FREEZERS

Refrigerators and freezers must be washed well with soap and water. It is not necessary to line shelves, since they are only used for cold food. Lining the shelf improperly may also impair the operation of the machine.

KITCHEN CUPBOARDS

Kitchen cupboards must be thoroughly cleaned. Most people have the custom to line their shelves.

TABLECLOTHS & DISH TOWELS

The usual method of cleaning (e.g. dry cleaning) or laundering via washing machine is sufficient. There are those who prefer to have separate tablecloths and dish towels for Pesach. Make sure that starch is not used. Towels and tablecloths should be washed with detergent, with the machine set to the hottest setting it will go. New tablecloths may contain a starch, which is not acceptable for Passover. Be sure to wash them before Pesach use. Plastic tablecloths previously used for Chametz should not be used on Pesach.

GUIDE DE CASHERIZATION POUR LES SEPHARADES

CACHÈRISATION POUR PESSA'H

Même s'il serait meilleur d'avoir tout séparer pour Pessa'h, il est parfois difficile de le faire. La Halac'ha (Loi juive) permet toutefois la cachèrisation d'une grande partie de la vaisselle et des ustensiles.

MÉTHODE DE CACHÈRISATION

LIBUN GAMUR: L'article cachèrerie est chauffé avec une lampe à souder ou du charbon chaud jusqu'à ce qu'il devienne rouge. Il n'est pas nécessaire de laisser l'article hors d'usage pendant 24 h avant la période de cachèrisation. Cette méthode de cachèrisation devrait être utilisée seulement par des individus spécialement formés. On l'utilise pour les articles qui entrent directement en contact avec le feu.

LIBUN KAL: Libun Kal est obtenu quand un article est chauffé jusqu'à ce que des marques de brûlures apparaissent sur un mince morceau de bois ou sur un mouchoir lorsqu'il entre en contact avec l'article que l'on cachèrerie. Ce procédé est habituellement utilisé sur des articles dont la Hagalah (la purge) ne peut être effectuée.

MILUI V'ERUI: On trempe dans l'eau froide pendant trois jours, en changeant l'eau toutes les 24 h.

TEVILLA: Immersion de tout article neuf dans le mikveh

*Happy
Passover
Joyeux
Pessah*

**ANTHONY
HOUSEFATHER**

Member of Parliament - Mount Royal
Député - Mont-Royal

GUIDE DE CASHERIZATION POUR LES SEPHARADES

HAGALAH: L'article est bien nettoyé et laissé hors d'utilisation pendant 24 h. Il est immergé dans l'eau bouillante. Une fois l'article retiré de l'eau chaude, on le rince à l'eau froide. Certaines personnes ont une marmite kasher qu'ils utilisent uniquement pour Pessa'h. Toutefois, il est aussi possible d'utiliser une marmite ordinaire ayant déjà été en contact avec du 'hamets, viandes ou produits laitiers, tant que celle-ci reste parfaitement propre, non utilisée pendant 24 h et ensuite cachèreisée. Cette méthode de cachèrisation est utilisée pour nettoyer des marmites, des fourchettes ou des cuillères en métal, ou encore, des ustensiles en bois incompatibles avec le feu.

ERUI: Cet article est nettoyé en profondeur et laissé hors d'usage pendant 24 h. On remplit d'eau la marmite, on porte l'eau à ébullition ou une bouilloire* et on la coule directement sur toutes les surfaces de l'article devant être cachèreisé.

*Des précautions doivent être prises pendant ce processus de cachèrisation afin que personne ne se brûle accidentellement.

**Il est préférable d'utiliser une casserole ou une bouilloire de Pesach pour la cashérisation. Si vous desirez utiliser une casserole qui est utilisée a l'année longue, veuillez obtenir l'autorisation de votre Rav.*

GUIDE DE CASHERIZATION POUR LES SEPHARADES

FOURS

FOUR AUTONETTOYANT

Il faut effectuer un cycle complet d'autonettoyage avec les grilles du four à l'intérieur, afin de pouvoir l'utiliser pendant Pessah et sans avoir à recouvrir les grilles. Puisque la méthode autonettoyage est considérée comme une cachérisation «Liboun Gamour», il n'est donc pas nécessaire de laisser reposer le four pendant 24 heures ou d'appliquer des produits nettoyants au préalable de l'autonettoyage. Attention : Si les grilles ne se trouvaient pas dans le four pendant le cycle complet d'autonettoyage, il faudra les cachérer séparément.

FOUR ORDINAIRE (SANS FONCTION AUTONETTOYAGE)

Pour les fours conventionnels sans la fonction autonettoyage, un nettoyage en profondeur avec produits ménagers sera requis. Soyez vigilants et retirez toutes traces de graisse. Une fois propre et après avoir attendu 24 heures depuis la dernière utilisation, il faudra par la suite allumer le four à la température la plus élevée et le laisser chauffer pendant au moins une heure. Note : Cette méthode ne convient pas pour cachérer les grilles du four. Celles-ci doivent être mises dans un four autonettoyant et laissées pendant une heure pendant le cycle d'autonettoyage. Si cela n'est pas possible, veuillez contacter votre rabbin. Si l'on n'a pas l'habitude de placer des aliments directement sur les grilles, il suffira de les chauffer/cachérer avec le reste du four.

PORTE DE FOUR

Après un cycle autonettoyant, il n'est pas nécessaire pour les Sépharadim de recouvrir la vitre à l'intérieur du four.

GUIDE DE CASHERIZATION POUR LES SEPHARADES

CUISINIÈRES

CUISINIÈRE ÉLECTRIQUE

Elles doivent être nettoyées soigneusement comme à l'état neuf. Cela comprend les pourtours en métal de chaque élément, la surface en émail entre les brûleurs, les cuvettes d'égouttement et la partie en dessous des cuvettes d'égouttement si accessible. Les boutons de contrôle doivent être retirés, nettoyés et recouverts ou remplacés. Après avoir attendu 24 heures depuis la dernière utilisation, la surface en émail de la cuisinière doit être cachérisée avec un «Irui Keli Rishon». Néanmoins même selon les coutumes Sépharades, certains ont l'habitude de recouvrir la surface en émail par la suite. Les éléments en bordure ainsi que les cuvettes d'égouttement nécessitent un «Irui Keli Rishon» ou bien une «Hagala». Si cela est impossible, il faudra les emballer doublement et de façon méticuleuse. Les éléments électriques doivent ensuite être cachérisés en les allumant à la plus haute température pendant 5 minutes. Attention : Ne jamais laisser la cuisinière sans surveillance. Ne pas cachériser tous les brûleurs en même temps.

CUISINIÈRE EN VITROCÉRAMIQUE

Les cuisinières en verre sont faites d'un matériau en vitrocéramique. Comme son nom l'indique, et grâce à ses propriétés non poreuses, ces cuisinières ont le statut «halakhique» du verre. Pour les Sépharades, les cuisinières en vitrocéramiques peuvent être cachérisées. Pour ce faire, il faut nettoyer la surface avec des produits prévus à cet effet. Ceci inclut le nettoyage des boutons de contrôle, des côtés

GUIDE DE CASHERIZATION POUR LES SEPHARADES

et des recoins. Il est recommandé de changer ou de recouvrir les boutons. Une fois nettoyée et après avoir attendu 24 heures depuis la dernière utilisation il faut ensuite verser de l'eau bouillante sur toute la surface. Allumer chaque élément chauffant au maximum pendant 15 minutes. Attention : Ne jamais laisser la cuisinière sans surveillance. Ne pas cachérer tous les éléments chauffants en même temps.

CUISINIÈRE À INDUCTION

Suivre les mêmes étapes que la cuisinière en vitrocéramique. Pour cachérer les éléments chauffants, utilisez une marmite qui est «hametz» et qui n'a pas été utilisée pendant 24 heures et faites chauffer l'élément chauffant à température maximale pendant 15 minutes.

CUISINIÈRE À GAZ

Les cuisinières à gaz doivent être nettoyées soigneusement comme à l'état neuf. Ceci comprend les grilles en métal ou l'on pose les marmites, la surface en émail entre les brûleurs, les cuvettes d'égouttement ainsi que la partie en dessous si accessible. Les boutons de contrôle doivent être enlevés, nettoyés, recouverts ou remplacés. Les grilles en métal qui ont été préalablement nettoyées doivent être placées dans un four autonettoyant avec un cycle d'autonettoyage pendant une heure. Si cela n'est pas possible, la grille de métal doit rester sur la cuisinière et chaque brûleur doit être allumé à la plus haute température pendant 15 minutes. Il est préférable que pendant ces 15 minutes, le brûleur soit recouvert

The management and
staff of Sobeys Clark &
Hilda wish you a
Happy Passover

The largest selection of kosher
products for Passover in one store.

sobeys

441 Clark Ave W, Thornhill, ON

GUIDE DE CASHERIZATION POUR LES SEPHARADES

d'une plaque en métal. Cachérisez un brûleur à la fois. Après avoir attendu 24 heures depuis la dernière utilisation, la surface en émail entre les brûleurs doit être cachérisée avec un «Irui Keli Rishon». Même selon les coutumes Sépharades, beaucoup ont l'habitude de couvrir la surface en émail par la suite. Les éléments en bordure ainsi que les cuvettes d'égouttement nécessitent un «Irui Keli Rishon» ou bien une «Hagala». On peut également les ajouter dans un cycle d'autonettoyage, si cela est impossible, il faudra les emballés doublement et de façon méticuleuse et on pourra les utiliser. Ne jamais laisser la cuisinière sans surveillance durant les étapes de cachérisation.

HOTTE

La hotte de la cuisinière retient des particules de nourriture et absorbe de la vapeur «hametz», il faut donc bien la nettoyer et la cachériser pour Pessah. Il est recommandé de nettoyer la surface de la hotte avec des produits d'entretien. Une fois propre, la cuisinière ne doit pas être utilisée pendant 24 heures. Faire bouillir une marmite d'eau afin que la vapeur cachérise la hotte. Les filtres doivent être bien nettoyés ou idéalement changés. Il est également possible de bien recouvrir la hotte avec du papier aluminium.

MICRO-ONDES

Idéalement, il est préférable de ne pas cachériser un micro-ondes. Si une personne a vraiment besoin d'utiliser un micro-ondes pendant Pessah, il faudra suivre les étapes suivantes. Enlever l'assiette en

GUIDE DE CASHERIZATION POUR LES SEPHARADES

verre et nettoyer de façon méticuleuse toute la surface du micro-ondes ainsi que l'assiette en verre.

Après 24 heures sans avoir utilisé le micro-ondes, remettre l'assiette en verre en place et chauffer un verre d'eau avec du liquide à vaisselle à l'intérieur jusqu'à ce que l'eau s'évapore (environ 10 minutes). Il faudra par la suite faire bouillir un deuxième verre d'eau sans liquide à vaisselle cette fois-ci. Même après le processus de cachérisation, il faudra emballer doublement la nourriture pendant Pessah.

PLATA/PLAQUE CHAUFFANTE

Si l'on a l'habitude de placer la nourriture directement sur une plaque chauffante, comme du pain par exemple, celle-ci ne peut pas être cachérisée. La seule solution est de la nettoyer, de l'allumer pendant 1 heure et la couvrir doublement de papier aluminium. Si l'on a l'habitude d'y placer la nourriture dans une marmite, la plaque peut être cachérisée. La plaque chauffante doit être bien nettoyée. Après 24 heures, versez de l'eau bouillante d'un «Keli Rishon» sur toute la surface. Cependant il est préférable de recouvrir toute la surface avec du papier aluminium.

MÉLANGEUR ET HACHOIR

Les mélangeurs, les hachoirs et les robots culinaires qui ont été utilisés pendant l'année pour des aliments non-hametz uniquement peuvent être cachérisés. Toutes les pièces amovibles doivent être enlevées et suivre le processus de «Hagala». Les pièces qui ne peuvent pas être retirées et qui sont facilement accessibles doivent

Wide selection of kosher
organic coffees roasted in the
Eastern Townships

770 chemin lakeside, lac brome
virginhillcoffee.com

GUIDE DE CASHERIZATION POUR LES SEPHARADES

être très bien nettoyées. Si les pièces ne peuvent pas être retirées et ne sont pas facilement accessibles pour être nettoyées, ils ne peuvent pas être cachérisés. **Veuillez noter que les machines à pain ou les mélangeurs dans lesquels du « hametz » a été mixé pendant l'année, ne peuvent pas être cachérisés.**

PERCOLATEUR (DISTRIBUTEUR D'EAU CHAUDE)

Si du pain n'a pas été réchauffé sur le dessus du percolateur, vous pouvez donc bien nettoyer le percolateur. Essayer d'enlever tout le calcaire qui s'est formé à l'intérieur. Remplissez-le jusqu'en haut et portez à ébullition. Cependant, si du pain a été réchauffé au-dessus du percolateur, tout le percolateur doit être cachérisé. Pour un percolateur en métal il faudra procéder au « Liboun Kal », si cela est impossible il faudra faire une « Hagala ». Pour un percolateur en plastique, faire la « Hagala ».

LAVE-VAISSELLE

Que l'intérieur du lave-vaisselle soit en métal ou en plastique, il peut être cachérisé uniquement pour les Sépharades. Pour le cachériser, bien le nettoyer, enlever et vérifier soigneusement les filtres et retirer tous les restants de nourriture. (S'il est impossible d'enlever tous les restants de nourritures, consulter votre rabbin.) Après 24 heures à la suite à la dernière utilisation, faire un cycle de nettoyage à vide avec du savon sur le réglage le plus chaud. Certains font un deuxième cycle avec de l'eau seulement. Idéalement, il faudrait changer les paniers, mais si cela n'est pas possible, simplement bien les nettoyer. Note : Pour les lave-vaisselles en porcelaine, veuillez consulter votre rabbin.

GUIDE DE CASHERIZATION POUR LES SEPHARADES

ÉVIERS

Les évier en métal peuvent être cachérisés conformément à tous les avis. Selon de nombreux « Poskim » Sépharades, tous les évier peuvent être cachérisés et ce, peu importe la matière. Veuillez consulter votre rabbin.

L'évier doit être nettoyé comme neuf, en accordant une attention particulière aux fissures et aux crevasses. Le robinet ainsi que les poignées doivent aussi être méticuleusement nettoyés.

Une fois les évier propres, on ne pourra pas utiliser l'eau chaude pendant 24 heures. Avant de cachérer, il est conseillé de fermer la valve d'eau chaude sous l'évier, pour éviter que l'eau chaude soit utilisée. Versez un nettoyant pour drain très puissant à l'intérieur et autour du drain. La méthode de cachérisation de l'évier est le « Erui ». Toute la surface de l'évier doit être sèche avant de verser l'eau bouillante, afin que l'eau ne puisse pas se refroidir.

Il est recommandé de cachérer la base de l'évier en premier et ensuite cachérer les côtés. Utilisez une bouilloire spécialement réservée pour la cachérisation de Pessah et la remplir avec de l'eau. Porter à ébullition. Immédiatement après l'ébullition, l'eau doit être versée sur la surface pour que l'évier soit cachérisé. Versez de l'eau bouillante sur chaque partie de l'évier, en vous concentrant sur de petites surfaces à la fois, en veillant à ce que l'eau reste bouillante au fur et à mesure que vous la versez. Une fois l'évier cachérisé, versez de l'eau froide sur toute sa surface. L'eau bouillante doit également être versée sur les robinets et les poignées. Si le bec du robinet possède un filtre, il faut le changer ou le retirer pour

GUIDE DE CASHERIZATION POUR LES SEPHARADES

Pessah. (Le bouchon de l'évier devrait également être changé). Note : Certains ont l'habitude de faire « Erui » trois fois pour des éviers en porcelaine.

COMPTOIR

Selon les Sépharades, tous les comptoirs peuvent être cachérisés grâce aux étapes suivantes. Afin d'être cachérisées, les surfaces doivent être nettoyées méticuleusement comme à neuf. Une fois propre, et après que rien de chaud a été poser sur ces surfaces pendant 24 heures. La surface au complet doit être sèche avant d'y verser de l'eau bouillante, afin de ne pas refroidir l'eau bouillante. La méthode utilisée pour cachériser le comptoir est « Erui ». Utiliser une bouilloire spécialement réservée pour la cachérisation de Pessah et la remplir avec de l'eau. Porter à ébullition. Immédiatement après l'ébullition, l'eau doit être versée sur toute la surface pour qu'elle soit cachérisée. Versez de l'eau bouillante sur chaque partie du comptoir, en vous concentrant sur de petites surfaces à la fois, en veillant à ce que l'eau reste bouillante au fur et à mesure que vous la versez. Une fois le comptoir cachérisé, versez de l'eau froide dessus. Après la cachérisation, beaucoup ont tout de même l'habitude de recouvrir les surfaces. Si le marbre est poli ou le granite est fissuré, rempli, ou lors de l'installation, enduit d'un scellant spécial, veuillez consulter votre rabbin.

GUIDE DE CASHERIZATION POUR LES SEPHARADES

TABLES

Si l'on a l'habitude de manger toute l'année avec une nappe, il sera suffisant de nettoyer méticuleusement la table. Si au contraire, nous avons l'habitude de manger sans nappe, la table devra être cachérisée avec un « Irui Keli Rishon ». Pour les Sepharades, une table en verre peut être utilisée si méticuleusement nettoyée.

RÉFRIGÉRATEURS ET CONGÉLATEURS

Les réfrigérateurs et les congélateurs doivent être bien nettoyés avec de l'eau et du savon. Il n'est pas nécessaire de recouvrir les surfaces, puisque celles-ci ont été utilisées pour de la nourriture froide. Si l'on recouvre mal les étagères, cela pourrait affecter l'efficacité de l'appareil.

PLACARDS DE CUISINE

Les placards de cuisine doivent être bien nettoyés. La plupart des gens ont la coutume de recouvrir les étagères.

NAPPES ET TORCHONS

La méthode habituelle de nettoyage, par exemple le nettoyage à sec ou le lavage en machine, est suffisante. Certains préfèrent cependant avoir des nappes et des torchons séparés pour Pessah. Les serviettes et les nappes doivent être lavées avec du savon à lessive, sur la température la plus élevée. Les nappes neuves peuvent contenir un amidon qui n'est pas acceptable pour Pessah. Assurez-vous de les laver avant de les utiliser pour Pessah. Les nappes en plastique qui ont été déjà utilisées pour du « hametz » ne devraient pas être utilisées pendant Pessah.

Pharmaceutical Pharmaceutique

*Come to your "real" Passover warehouse and compare.
Where you will find Kosher foods for the Holiday
imported from all over the world.*

*Want a nice Roast Beef or Veal, Turkey, Duck,
Lamb or Chicken, or one of our famous Pickled Brisket
or Pickled Tongue or any offals you wish.*

*Come to the newly renovated Esposito
where you will find a mashgiach and butchers
on the premises to serve you.*

*We also have the largest selection of quality fruits
and vegetables for the Holidays and everyday.*

Also a large selection of fresh fish.

*Wishing everyone a Happy Passover
from the Esposito Family,
management and staff.*

HALACHOT - LAWS OF MEDICINES, COSMETICS & TOILETRIES

This list does not verify the general kashrut of medications, lipsticks or personal care products.

It only relates to its non-chametz status.

Items must be purchased in the exact form they are named.

Cette liste ne certifie pas la cachrout générale des médicaments, des rouges à lèvres ou des produits de soins corporels. Elle se rapporte uniquement au statut non 'hamets des produits qui y sont mentionnés.

Ces articles doivent être achetés selon la formulation précise par laquelle ils ont été nommés.

PASSOVER HOTLINE

1-866-739-6363

All medications for a heart condition, diabetes, abnormal blood pressure, stroke, kidney disease, lung disease, depression, the immune system (transplant anti-rejection) and cancer treatment (including precautionary) must be taken on Pesach. No one should refrain from taking any required medication, even if it contains chometz, without first consulting his or her physician and Rabbi.

*All medications in pill or tablet form which are swallowed and which taste bitter or bland (when the pill is licked) are permitted.

*All medicated drops for ear, eye or nose only, including injections, ointments, powders (talc and cornstarch), foot powders, and inhalers may be used. If products contain cornstarch one should wash ones hands before touching food.

*See list for vitamins and food supplements.

*Over the counter pills, liquid and chewable medications that may contain Chametz should only be used under the direction of a Rabbi together with a doctor who will determine the severity of an illness and the possibility of substituting medication.

*Liquid and chewable medications that may contain Kitniyot may be taken by someone who is ill. An otherwise healthy person who only has a slight discomfort should only use medication in non-chometz tablet form.

Tout médicament relatif aux maladies cardiaques, au diabète, à une tension artérielle anormale, à une attaque d'apoplexie, à une maladie des reins ou des poumons, à la dépression, au système immunitaire (pour prévenir le rejet d'une greffe) et au cancer (même à titre préventif), est autorisé à Pessa'h. Personne ne doit s'abstenir de prendre un médicament requis - même si ce dernier contient du 'hamès - sans avoir consulté au préalable son médecin et son rabbin.

*Tout médicament sous forme de pilule ou de comprimé que l'on avale ou qui a un goût amer ou fade lorsqu'on le suce, est autorisé.

*Toutes les gouttes médicamenteuses utilisées uniquement pour les oreilles, les yeux, ou le nez, les injections, les pommades, les poudres – talc, amidon de maïs, poudres pour pieds, etc. - et les inhalateurs, sont permis à Pessa'h. Si ces produits contiennent de l'amidon de maïs, on devra se laver les mains avant de toucher un aliment quelconque.

*Les vitamines et suppléments alimentaires ne sont pas forcément classés dans cette catégorie de médicaments. De ce fait, il convient de consulter son rabbin.

*Les comprimés vendus sans prescription et les médicaments à boire ou à mâcher qui pourraient contenir du 'hamès, ne doivent être utilisés qu'avec l'autorisation d'un rabbin et d'un médecin qui, eux, évalueront la gravité de la maladie en question et la possibilité de remplacer ces médicaments par d'autres qui ne contiennent pas de 'hamès.

*Les médicaments à boire ou à mâcher qui pourraient contenir des Kitniyot (légumineuses) peuvent être pris par un(e) malade. Toutefois, une personne qui est en bonne santé et qui n'éprouve qu'un léger malaise, pourra prendre uniquement un médicament sans 'hamès, sous forme de comprimé.

LIST OF OVER THE COUNTER PRODUCTS WHICH ARE ACCEPTABLE FOR PESACH

**DO NOT DISCONTINUE USE OF ANY MEDICATION
WITHOUT CONSULTING A RABBI OR DOCTOR**
